OUR COMPANY

AICB is a company that develops and operates the WPT AI Payment Gateway, which is a secure and efficient way for merchants to accept payments in WUSD and convert them into WPT.

WUSD is a cryptocurrency that is used in AI Payment Gateway.

The company was founded in 2023 by a team of experienced entrepreneurs with a passion for blockchain technology.

The company's mission is to make it easy and secure for businesses to accept payments in WUSD.

Thecompany's vision is to be the leading provider of AI-powered payment solutions for the blockchain world.

WP

Empowering the Future of Digital Transactions
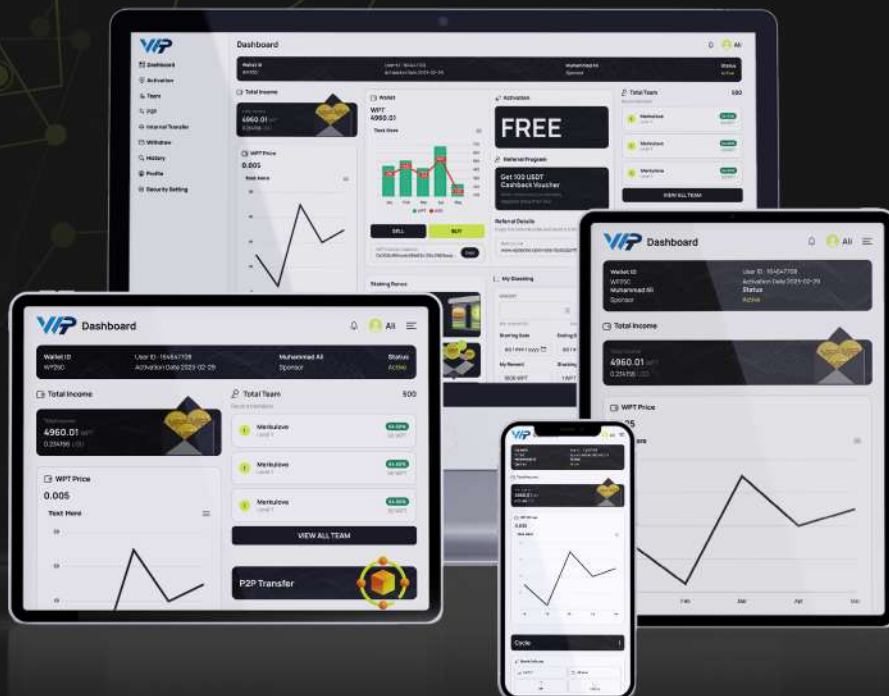

ABOUT OUR PROJECT

Welcome to WPTecno, WPT is a cryptocurrency that is used to power the AI Payment Gateway.

WPT is based on the blockchain technology, which makes it a secure and transparent way to make payments.

WPT is also a decentralized currency . Our platform is built on the latest technologies, including artificial intelligence (AI) and Claude, to provide a seamless and secure 1st payment gateway for the modern digital age.

WPT technology is still in its early stages of development, but it has the potential to revolutionize the way we power our devices.

The WPT Project is playing a leading role in advancing this technology, and it is helping to create a more sustainable and efficient future.

OUR MISSION

Our mission is to be the leading provider of AI-powered payment solutions for the blockchain world. We are constantly innovating and developing new ways to make payments faster, easier, and more secure.

WE ARE PROUD THAT WE ARE AVAILABLE ON THE FOLLOWING PLATFORMS:

BscScan	Trust Wallet	PancakeSwap	PooCoin
DEX SCREENER	METAMASK	cmc markets	OKX

We are also working to be listed on other major exchanges after staking.

WPTECNO FEATURES

Our mission is to be the leading provider of AI-powered payment solutions for the blockchain world. We are constantly innovating and developing new ways to make payments faster, easier, and more secure.

01 **UTILITY :** Ai Payment Gateway WPTECNO enhances trust of AI user's with secure transactions, Wallet protection with NFT transactions and gaming zone purchasing.

02 **REWARDS :** WPTECNO can also be used as a reward mechanism for users who contribute to the platform. This can include content creators, community moderators, marketers , investors and other users who add value to the platform.
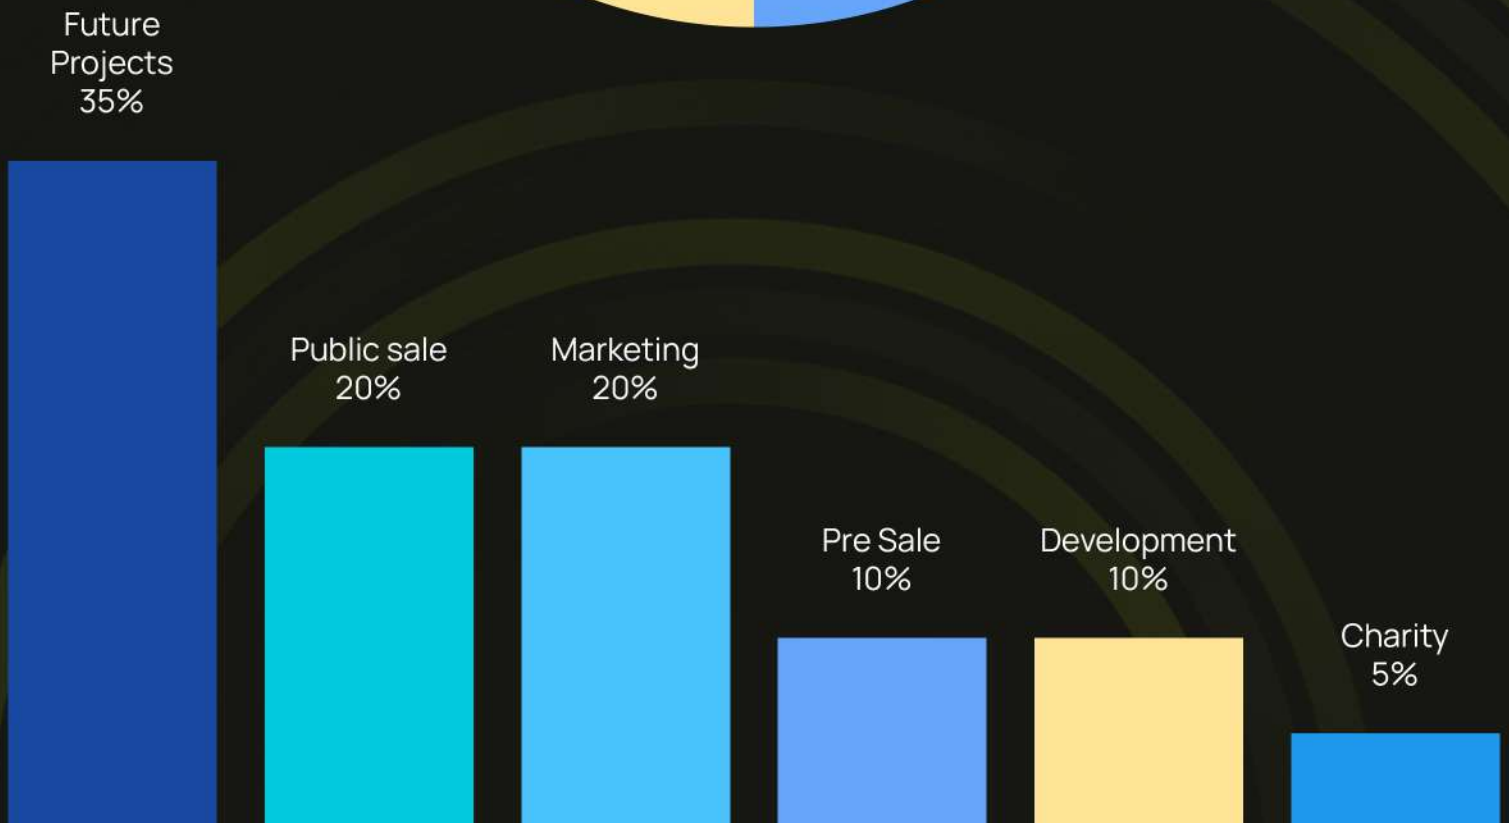

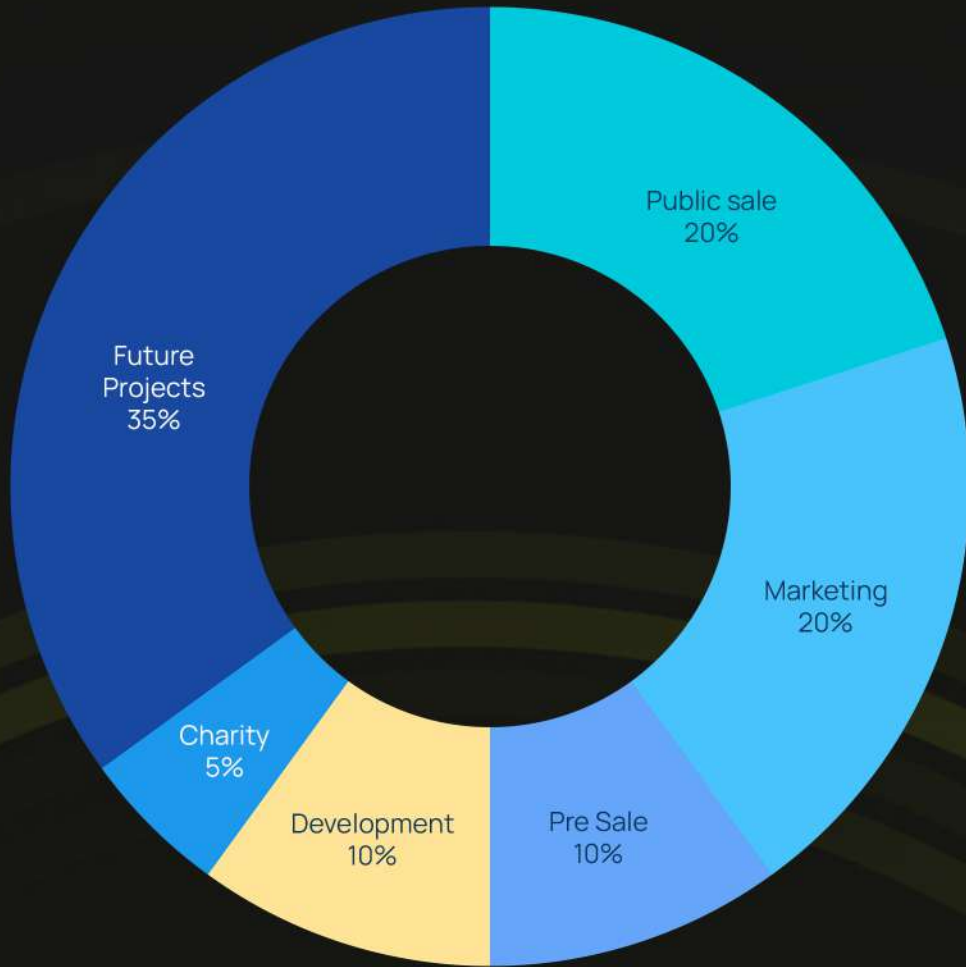

03 **SECURITY :** WPTECNO uses blockchain technology to provide a secure and transparent platform. This ensures that all transactions are recorded on a decentralized ledger and cannot be tampered with.

04 **LOW TRANS.FEE :** The use of WPTECNO reduces transaction fees as it eliminates the need for intermediaries such as banks or payment processors. This makes it more cost-effective for users to transact on the platform.

05 **LIMITED SUPPLY :** The total supply of WPTECNO is limited, which helps to maintain its value over time. This also ensures that WPT remains scarce, which can increase demand and drive up its price.
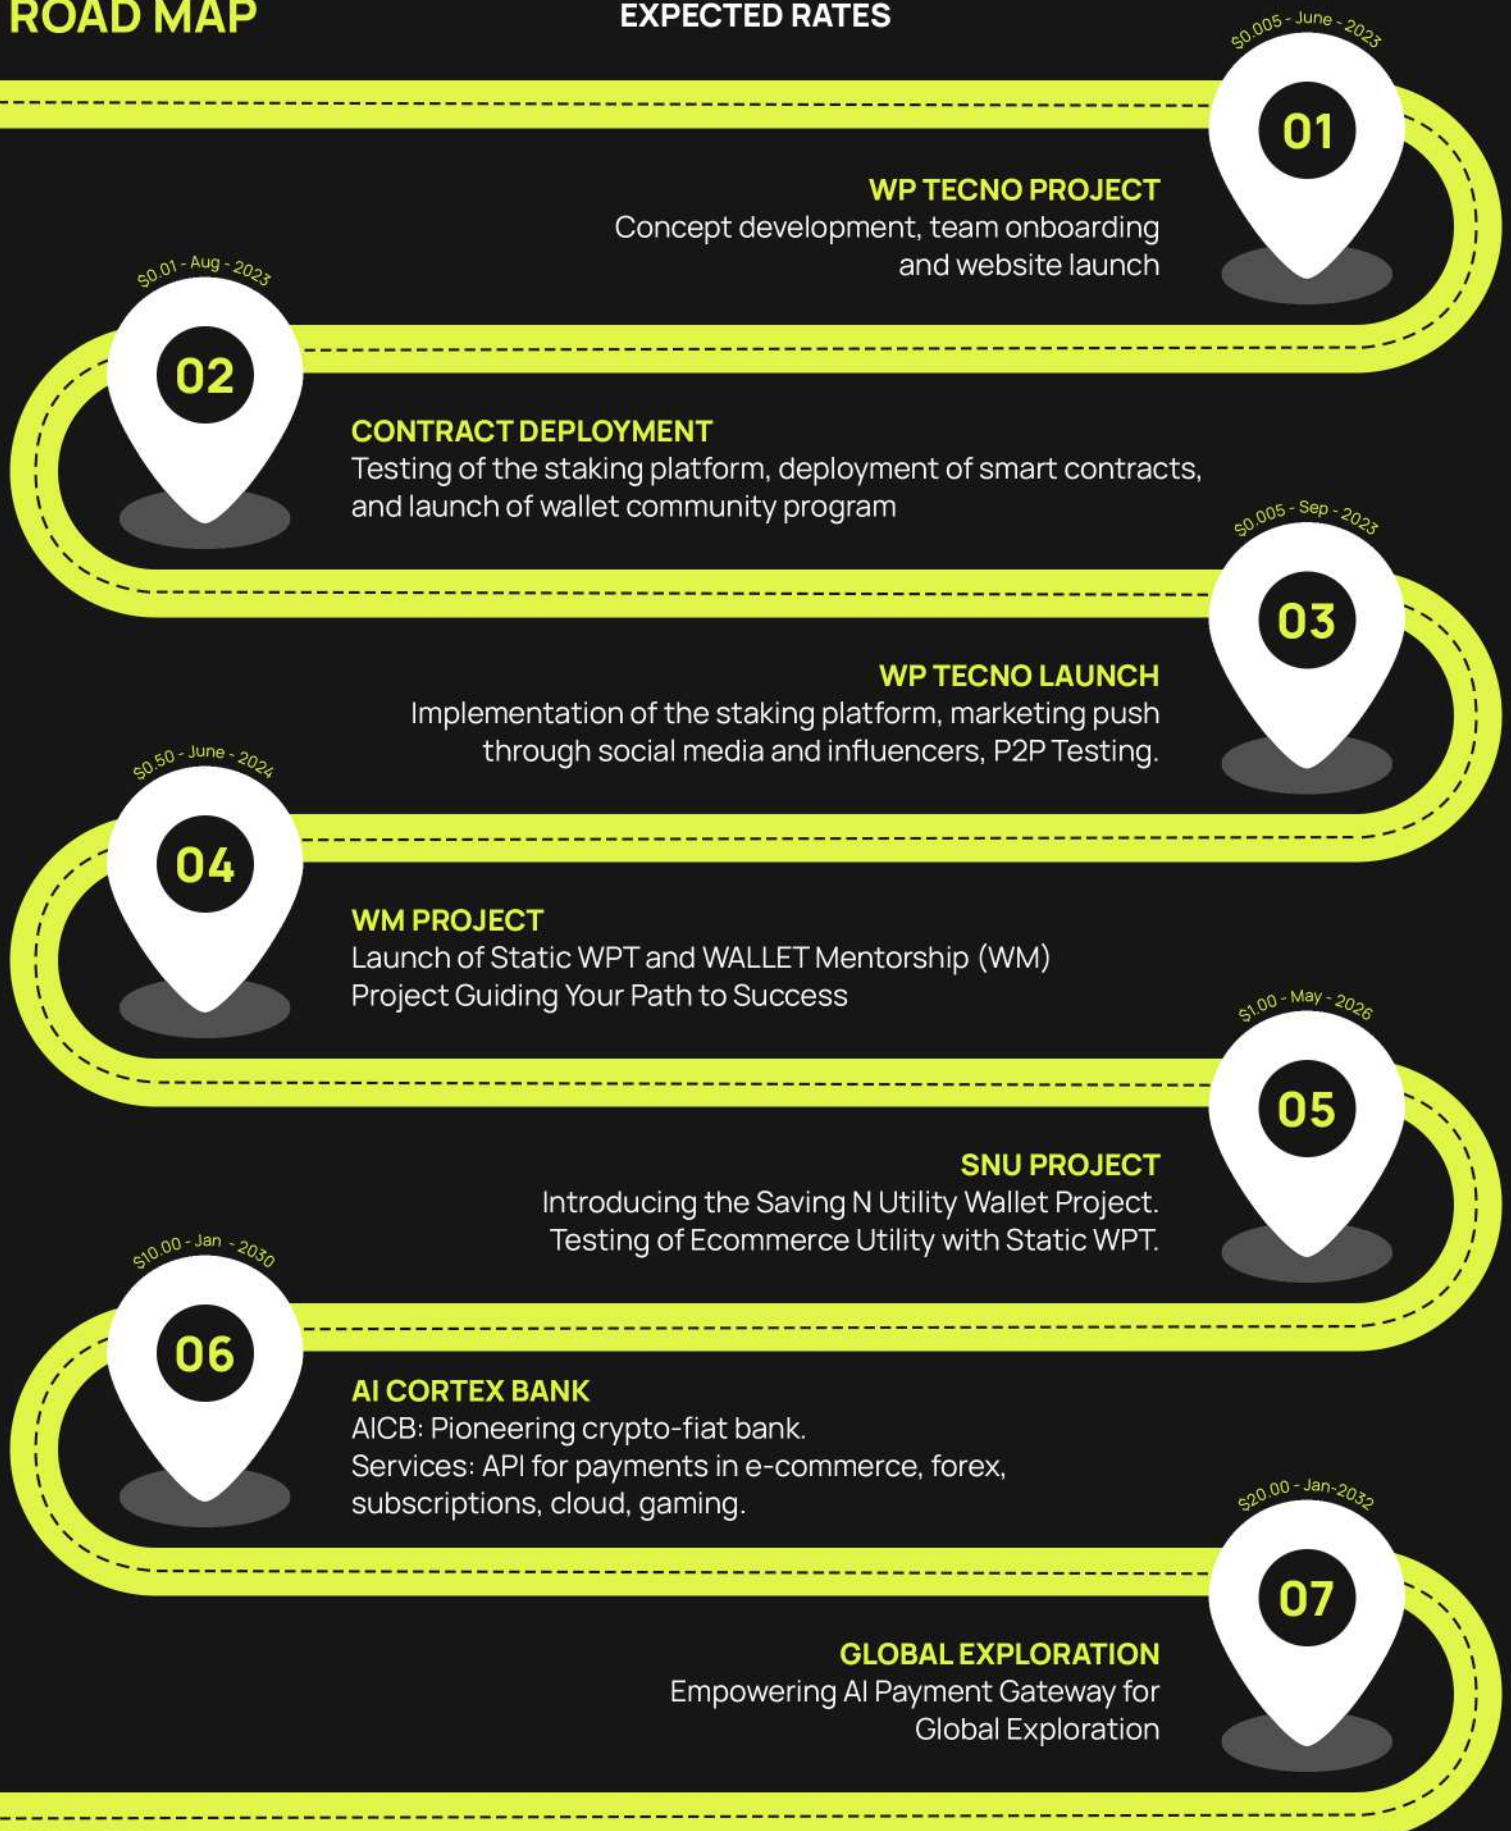

06 **LIQUIDITY :** WPTECNO works by creating liquidity pools, which are pools of cryptocurrency tokens that can be traded by users. Liquidity providers earn rewards for depositing their tokens into the pool, and traders can use the pool to buy and sell tokens without having to find a counterparty.

ROAD MAP

EXPECTED RATES

$0.005 - June - 2023

01

WP TECNO PROJECT
Concept development, team onboarding and website launch

$0.01 - Aug - 2023

02

CONTRACT DEPLOYMENT
Testing of the staking platform, deployment of smart contracts, and launch of wallet community program

$0.005 - Sep - 2023

03

WP TECNO LAUNCH
Implementation of the staking platform, marketing push through social media and influencers, P2P Testing.

$0.50 - June - 2024

04

WM PROJECT
Launch of Static WPT and WALLET Mentorship (WM) Project Guiding Your Path to Success

$1.00 - May - 2026

05

SNU PROJECT
Introducing the Saving N Utility Wallet Project. Testing of Ecommerce Utility with Static WPT.

$10.00 - Jan - 2030

06

AI CORTEX BANK
AICB: Pioneering crypto-fiat bank.
Services: API for payments in e-commerce, forex, subscriptions, cloud, gaming.

$20.00 - Jan-2032

07

GLOBAL EXPLORATION
Empowering AI Payment Gateway for Global Exploration

WPT STAKING

WPT staking plan is a way for users to earn rewards for holding WPT tokens. When users stake their WPT tokens, they are essentially locking them up for a period of time. In return, they receive rewards in the form of new WPT tokens. The staking rewards are determined by a number of factors, including the amount of WPT staked and the length of time the tokens are staked for.
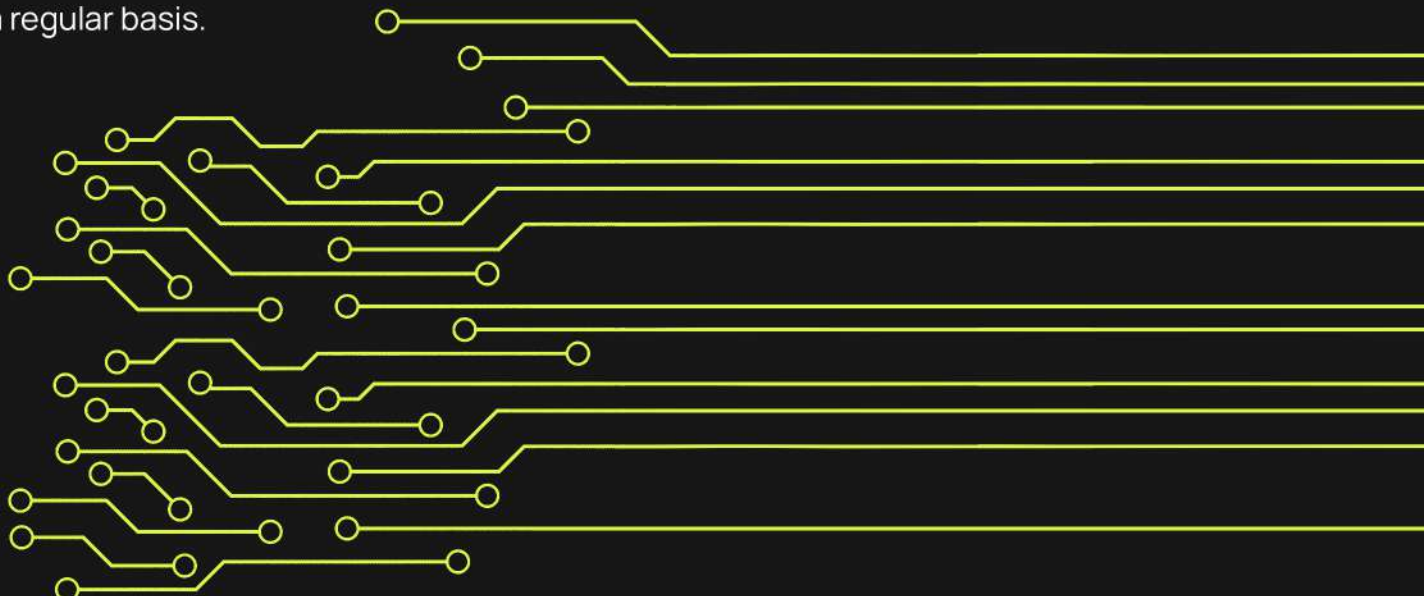

HERE ARE SOME OF THE BENEFITS OF STAKING WPT TOKENS:

→ **EARN REWARDS:** When you stake your WPT tokens, you earn rewards in the form of new WPT tokens. The amount of rewards you earn depends on the amount of WPT you stake and the length of time you stake them for.

→ **SECURE YOUR TOKENS:** Staking your WPT tokens helps to secure the WPT network. By staking your tokens, you are helping to verify transactions and keep the network running smoothly.

→ **HELP THE WPT PROJECT:** Staking your WPT tokens helps to support the WPT project. By staking your tokens, you are helping to ensure the long-term success of the project.

If you are interested in staking WPT tokens, you can do so by creating a WPT wallet and buying WPT from P2P. Then you can stake your tokens by selecting the staking option in the wallet.

The staking rewards are paid out on a regular basis.

WP

HERE IS HOW STAKING WORKS

1 — Investors purchase WPT Tokens from P2P

2 — You need to deposit at least 700 WPT to start staking

3X **3** — During the staking period, investors earn daily rewards which are 3x of your actual amount.

4 — Sponsors can earn a 5% direct bonus for referring new investors.

55% **5** — They can also earn 55% of their downline's daily rewards from the deep 15 levels.

6 — You can withdraw at least 700 WPT through the P2P platform at any time.

700

INDIRECT REWARD PLAN

LEVEL	STAKING REWARDS
Level - 01	20%
Level - 02	12%
Level - 03	08%
Level - 04	05%
Level - 05	03%
Level - 06	02%
Level - 07	01%
Level - 08	0.5%

AICB SOLUTION

AICB is a company that develops and operates the WPT AI Payment Gateway, which is a secure and efficient way for merchants to accept payments in WUSD and convert them into WPT.

PEER-TO-PEER (P2P)

Our platform connects users from across the globe, creating a vast network for P2P transactions. Whether you're looking to buy, sell, or exchange cryptocurrencies or fiat currencies, you can connect with a diverse range of users.

WUSD

WUSD is a stable cryptocurrency that is used in AICB. Its value is designed to remain relatively stable. You can convert your USDT, Perfect Money, Payeer, Wise, and many other currencies into WUSD. This makes it easy to use WUSD in AICB and other platforms that support it.

API

The AICB API allows developers to integrate AICB's services into their own applications. This includes the ability to buy, sell, and exchange cryptocurrencies, manage WUSD accounts, and access real-time market data.
The AICB API is well-documented and easy to use. It is also highly scalable, so it can handle large volumes of traffic.

HERE ARE SOME EXAMPLES OF HOW THE AICB API CAN BE USED:

→ A cryptocurrency exchange could use the AICB API to offer its users the ability to buy and sell WUSD.

→ A fiat currency wallet could use the AICB API to allow its users to deposit and withdraw WUSD.

→ A merchant could use the AICB API to accept WUSD payments on their website.

→ A market data provider could use the AICB API to access real-time WUSD prices and trading data.
